SeyedFarzad Seyedarabinejad

Senior Full Stack Developer and **Tech Lead** with more than a decade of experience in developing efficient, scalable systems for high-demand projects. Played a critical role in developing and optimizing major platforms like Aparat-a video-sharing platform, much like YouTube in Iran, and Filimo, a movie streaming service for Iranians-servicing millions of users on a day-to-day basis. In a short period of within five years, grew into the role of Technical Lead, managing teams to lead the transformation of legacy systems into modern, cloud-based architectures. Acknowledged for expertise in system performance improvements, while mentoring team members and interdepartmental collaboration to deliver innovative solutions to some of the toughest challenges.

💼 Work experience

12/2024 - present
Marburg, Germany

Professional IT-Specialist at PaleBlueDot GmbH

- Engineered and deployed scalable, high-performance systems for the company's cloud-based solutions, resulting in a 40% improvement in system response time during peak usage hours while enhancing user satisfaction.
- Facilitated communication between development and marketing teams for comprehensive feedback loops on new features; this initiative resulted in actionable insights leading to faster iteration cycles reducing time-to-market by four weeks.
- Cultivated an environment of knowledge sharing by hosting bi-weekly workshops for team members; these sessions enhanced the skills of participating junior developers leading to quicker resolution times on complex issues.

08/2013 - 12/2024
Tehran, Iran

Senior Developer, Technical Lead, Software Architect at Sabaidea

Spearheaded initiatives to advance operations for top-tier digital platforms in Iran, resulting in increased platform reliability and enhanced user satisfaction metrics through strategic oversight.

1. **Cloob & Lenzor**
   - Developed and optimized Iran's largest social network and photo-sharing social network.
2. **Aparat & Filimo**
   - As Senior developer at largest video-sharing and VOD platforms, serving millions of daily users.
3. **Sabavision**
   - Led the development of Iran's largest online advertising agency, supporting multiple advertising models such as CPC, video ads, native ads and Etc .
   - Engineered robust systems capable of managing over 500 million ad requests daily, ensuring uninterrupted delivery and significant reduction in latency during peak traffic periods for a leading online advertising agency.
   - Revamped back-end infrastructure, enabling seamless interactions for millions of users during peak times;

contributed directly to maintaining 99.9% uptime with zero reported issues in the past quarter.

4. **Aparat Game**
   - Designed and developed Iran's largest live-streaming platform for gaming.
   - Created innovative solutions such as revenue-boosting instruments for content creators alongside stable communication channels; led initiatives yielding a reduction in server downtime from 30 minutes per week to less than five.

5. **AparatSport**
   - Executed strategies for launching a robust digital platform aimed at delivering immersive sporting events live; devised unique solutions leading to increased moderator efficiency through automated systems handling more than 100K interactions secondly.

10/2011 - 01/2013
Tehran, Iran

Web Developer - Senior Web Developer at Behpardaz
- Architected high-performance systems using Oracle APEX and PL/SQL to support the new digital infrastructure; enhanced data processing speed by reducing latency times to under two seconds per transaction.
- Orchestrated the implementation of scalable web-based solutions for Iran's video conferencing services; established performance metrics leading to improved user engagement rates across 1M+ monthly active users

04/2008 - 2/2011
Tabriz, Iran

Full-stack developer at Qalasalan (ISP)
- Engineered a comprehensive website and customer panel for Qalasalan (ISP), enhancing user engagement metrics by 35% through streamlined navigation and intuitive design elements that fostered seamless interactions.

⬡ Education

Shabestar, Iran

Associate's Degree in Software Engineering
Islamic Azad University, Shabestar Branch

✪ Organisational / Communication skills

`Time management` `Team collaboration` `Problem-solving` `Loyalty` `Leadership`
`Adaptability` `Open-mindedness`

✪ Skills

Programming Languages ● GoLang ● PHP ● JavaScript (Node.js, Bun) ● TypeScript ● HTML/CSS	**Frameworks and Libraries** ● **GoLang**: Gin, Echo, Fiber ● **Node.js**: Express.js, NestJS, Socket.IO ● React ● **PHP:** Zend, Slim Framework ● …
Database Management ● MySQL ● PostgreSQL ● Redis ● Oracle PL/Sql ● MongoDB ● Cassandra	**DevOps and Infrastructure** ● Docker ● Kubernetes ● Prometheus ● Grafana ● …
Streaming and Media Tools ● FFmpeg ● WebSocket ● RTMP ● …	**Messaging and Queue Systems** ● Kafka ● RabbitMQ ● NATS
Version Control and Collaboration ● Git (GitLab, GitHub) ● Svn	**Other Skills** ● Elasticsearch ● GraphQL ● Real-time Systems ● Scalable Architecture Design ● System Performance Optimization ● Team Leadership and Mentorship ● Agile Methodologies

Not limited to unique technology or programming languages. For every undertaking, top of the line equipment are researched, mastered, and applied to ensure fulfillment. Every task offers opportunities to learn, innovate, and create significant solutions. Looking ahead to fixing remarkable engineering challenges together and growing top notch things.
